## SEA CHANGE

Sea Change is a range of environmentally conscious wines that directly supports ocean conservation, while our minimal packaging reduces waste and environmental impact. Sea Change Wine doesn't just taste good, it does good. Every bottle sold helps support ocean conservation projects across the globe and our minimal packaging reduces waste and environmental impact. We believe that everyone has a role to play in protecting our marine life. Our goal at Sea Change is to combine our love of great wine with our desire to do something to help protect our oceans. We believe that everyone has a role to play in protecting our marine life. Turning the tide on the juggernaut that is plastic pollution is only going to happen if we all make changes, even small ones, and this is where the wine you choose can play a role.

## CASTELLI

In 1530 Luigi Da Porto wrote the first draft of his novel about Romeo and Juliet, while in his Villa in Montorso Vicentino, using the two nearby Castles of Montecchi and Capuleti as inspiration. Today we produce wines from the same land with the same passion.
